About This Game

Disciples II: Gallean's Return is a compilation edition that includes the base game, Disciples II: Dark Prophecy, plus the two standalone expansions Disciples II: Guardians of the Light and Disciples II: Servants of the Dark.

Disciples II: Guardians of the Light is a stand-alone expansion that lets you dive into the fantastical world of Disciples II as either the Empire or the Mountain Clans.

The Empire is decaying from within as self-proclaimed rulers struggle for control of the now vacant throne while a cruel Inquisition sweeps across the human lands, causing rebellion and misery. Meanwhile the Clans, recovering from their near-destruction, begin to reunite their tribes. They have received divine instructions and now seek to uncover an ancient ritual that will let them communicate with their god, Wotan.

Disciples II: Servants of the Dark is a stand-alone expansion that brings you into the never-ending quest for supremacy as either the Undead Hordes or the Legions of the Damned.

On the dark side, the Legions of the Damned enact a plan to spread Bethrezen's plague across Nevendaar. They sense the threat brought about by the rebirth of the Elven god and will stop at nothing to steal this power for their own purposes. Perhaps most

pivotal to the conflict, however, is Mortis and her army of Undead Hordes. After all, the rebirth of her husband Gallean was her doing. He had rejected her for what she had become, a twisted, heartless beast. Now she would teach her mate a lesson... one that would scar his people for eternity...

Features

- Random map generator
- Multiple resolution support
- High level unit AI support
- Improved computer AI
- Improved editor
- Improved UI
- Auto-Resolve Combat mode
- Player can capture capitals
- Direct 3D support for improved performance

This is not a game, it's art.

The atmosphere is really disturbing: they absolutely nailed the dark setting.

Even the little flocks of birds that you will see on your screen are actually unsettling.

Darkest Dungeon is nothing compared to Disciples II from this point of view.

Disciples II offers 4 campaigns for 4 different races, plus a bunch of skirmish maps (even these ones are story driven).

You play this game mostly for the campaigns, but the game includes a random map generator. Beware: it's not the best RMG ever made, since you have to edit some stuff. For example, randomly generated cities are empty while ruins don't contain any reward.

A bit disappointing, I know, but in the end you just have to edit cities (if you don't want them to be empty) and ruins (you can live without them I guess).

Also, Disciples II is old. It works, but you will probably need to play a bit with the configuration (resolution, compatibility mode, colors in bit). I highly recommend this game in any case.
